## 2013-14 RAM 3500 4WD 5" RADIUS ARM SYSTEM

### OVERVIEW

Improving on the Ram's new front suspension design this 5" System includes replacement tubular Radius Arms with Fabtech's exclusive dimple die side plates for superior strength and a rugged appearance. These new Radius Arms provide increased caster for use with oversized tires and lifted suspension heights.

The stock front coil springs are mounted with angular steel spacers to retain the factory spring bow. This is an important feature as Chrysler designed this bow to aid in their unique alignment spec and ride quality. Flat spacers do not provide this.

Heavy duty 1/4" thick steel front Track Bar drop bracket centers the axle under the vehicle with the new ride height.

A Fabtech innovation on this system is the steel front bump extensions. They will not blow out like extra long urethane bump stops found in other aftermarket suspensions. No chance of spring and shock damage with the Fabtech steel extensions.

The rear suspension receives a block and u bolt system with bump stop extensions.

The 5" Radius Arm System will clear 37" tall tires and is available with Fabtech Performance Twin Tube shocks or high end Dirt Logic Monotube shocks.

### FEATURES & BENEFITS

- Retains factory coil springs for proper handling and load carrying capacity
- Replacement Radius Arms with Fabtech's exclusive dimple die side plates provide additional strength and increased caster
- Fabtech steel bump stop extensions will not blow out like extra long urethane stops will
- 1/4" thick steel bracket construction throughout for added strength
- Available with Performance shocks or Dirt Logic 2.25 shocks
- Allows use of 37" tall tires
- Includes Free 5 year 60,000 mile Powertrain warranty

### INSTALLATION & TECH

- Estimated installation time - 4.5 Hours
- Amount of holes to drill for installation - 10
- Welding Required - No

### TIRE & WHEEL SIZES

Tire - 37x12.50/R17	Wheel - 17x9 w/5" BS w/minor trimming
Tire - 37x12.50/R18	Wheel - 18x9 w/5" BS w/minor trimming
Tire - 37x13.50/R20	Wheel - 20x9.5 w/5" BS w/minor trimming

5" Radius Arm System w/Performance Shocks #K3070

Qty	Part#	Description	UPC	Weight	Jobber	Jobber Ext
1	FTS23058	Component Box w/Performance Shocks	674866089099	145.0		
				Total Jobber -		

5" Radius Arm System w/Dirt Logic Shocks #K3071DB
