2015 FORD F150 4WD 4" SYSTEMS

NEW PRODUCT

OVERVIEW

Fabtech's new 4" F150 system utilizes their proven heavy duty construction and design features found in our 6" systems but with less lift and at a much lower price. This 4" Systems allows use of 35" tall tires and features high arched lower control arm crossmembers constructed of 1/4 " thick steel for maximum strength. The Fabtech ductile iron steering knuckles retain the stock track width keeping the tires under the fender for a clean appearance. Rear lift is accomplished with a block and u bolt configuration.

Available in two different styles. The Basic System includes heavy duty front Coilover shocks for increased dampening capacity while retaining the factory coil springs. Rear shocks include Fabtech's Performance or Stealth shocks.

The Performance System features Dirt Logic Stainless Steel 2.5 Coilover front shocks and Dirt Logic Stainless Steel 2.25 rear shocks for aggressive offroad capabilities with a smooth highway ride.

The 4" System allows use of 33" or 35" tires and is ESC (Electronic Stability Control) and Traction Control compliant.

FEATURES & BENEFITS

- High quality Fabtech construction with a low price
- 1/4 " thick steel lower control arm crossmembers and skid plate
- Allows use of 33" or 35" tires
- ESC and Traction Control Compliant
- Basic System features heavy duty front Coilovers and Performance or Stealth rear shocks
- Performance System includes Dirt Logic 2.5 Coilovers and 2.25 rear shocks

INSTALLATION & TECH

- Estimated installation time - 3-4 hrs.
- Amount of holes to drill for installation - 0
- Welding Required - NO
- Driveshaft modification required- NO

TIRE & WHEEL SIZES

Tire - 35/12.50R18	Wheel - 18x9 w/5" BS w/fenderwell cutting
Tire - 295/70R18	Wheel - 18x9 w/5" BS w/fenderwell cutting
Tire - 35/12.50R20	Wheel - 20x9 w/5" BS w/fenderwell cutting
Tire - 296/60R20	Wheel - 20x9 w/5" BS w/fenderwell cutting
